

# Timeless IV Kit

## Overview

The Timeless kit is designed to support healthy mitochondrial functioning, improving energy production and decreasing the signs of aging. The kit contents can create 10 or more infusions depending on the dose.

## Kit Contents

- N-Acetylcysteine 200mg/mL 30mL
- Hydroxocobalamin 2mg/mL 30mL
- Olympia Vita-Complex 30mL
- Magnesium Chloride 300mg/mL 30mL

## Possible Benefits of N-Acetylcysteine

- Reduce oxidative stress and mitochondrial dysfunction
- Improve glutathione deficiency, reducing inflammation and insulin resistance
- Stimulate collagen production, reducing fine lines and wrinkles

## Possible Benefits of Hydroxocobalamin

- Promote collagen production and enhance cell turnover, contributing to more youthful look
- Aid in cell metabolism to combat fatigue and boost energy levels
- Support healthy nerve and cognitive functioning

## Possible Benefits of Olympia Vita-Complex

- Reduce inflammation, limit signs of aging, and increase cellular regeneration
- Help control blemishes and breakouts
- Hydrates skin

## Possible Benefits of Magnesium Chloride

- May help mitigate oxidative stress, a process contributing to cellular damage and aging
- Improve sleep quality
- Aid in stabilizing DNA structure, promoting genomic integrity, a key factor in aging

## Storage

Store all ingredients at a controlled room temperature. Protect from light.
